

Product Update:
3M™ Vinyl Tape 471 Transparent
3M™ Vinyl Tape 4712 Transparent

June 1, 2024

Dear Valued Customer:

Effective June 1, 2024, 3M will be manufacturing 3M™ Vinyl Tape 471 Transparent and 3M™ Vinyl Tape 4712 Transparent with a new raw material. Due to raw material constraints, 3M has qualified an alternate supplier of an ingredient used in the adhesive formulation to provide better service to our customers and minimize potential service disruptions.

This alternative raw material has similar chemistry as the historically used raw material and designed to have similar fit, form, and function as the legacy adhesive. Our internal qualification test results indicate the updated 3M™ Vinyl Tape 471 and 4712 Transparent will continue to conform to the same product specifications. There are, however, many factors that can affect 3M product's use and customers should evaluate such 3M product to determine whether the 3M product is suitable and appropriate for their specific application and intended use.

If you have technical or application questions, please connect with a 3M Industrial Adhesives & Tapes Division Product Specialist at 1-800-362-3550, option 2, option 2 or via email at 3mproducts.adhesives.us@mmm.com.

Thank you for your continued support of 3M products.

Sincerely,
