

October 3, 2022

Dear Valued Customer:

As you are aware, on August 2nd, 2022, Huntsman sent out a Notice of Escapement (NOE) communication for Huntsman Boeing Material Specification BMS 5-28 Type 7 CL 2 certified product Epocast® 89537.

We have now been notified that Notification of Escapement #NE2389875-00 for Epocast® 89537 is closed and Boeing has recommended initiation of a “global acceptance” NCR N6750011015 to accept the parts.

Boeing is still requiring a Material Release Review (MRR) before accepting delivery of new orders after August 2nd, 2022, of Epocast® 89537. Please continue to abide by the MRR process; pass down the information to your respective value chains so that the purchaser or downstream participants can refer to relevant Boeing Quality System Requirements to determine whether their part or product is affected and what notification they need to make to Boeing or what approval is required by Boeing.

Regards,

A handwritten signature in black ink that reads "Victoria Jansz".
