

October 2, 2024

Subject: PSA Tack Results

Grades Impacted: Various products – see attachment.

Dear Valued Customer:

Momentive Performance Materials has identified your facility as a possible purchasing location of one or more of the materials listed below. Please forward this notification to any other appropriate personnel and/or locations within your company that you feel should be notified. Distributors, please forward this notification to your customers of the materials listed.

Effective November 1, 2024, this letter is to inform you that Momentive will no longer report Tack results on our Certificate of Analysis (CoA). This is currently reported as g/cm² on the CoA and tested on a frequency basis. We will continue to report Peel Adhesion results and all other physical properties that are currently reported on the CoA.

With the exception of this change, the grades listed below will be manufactured using the same material inputs, from the same sources of supply, according to the same base formulations, in the same production location and equipment, and will continue to meet all test specifications reported in our certificate of analysis.

If you have questions, please contact your local Momentive Account Manager.

Sincerely,

Thomas Stemper
Product Manager – Americas

Momentive Part #	Description
34696	CR593 55G-Drum (300.0LBS-136.2KG)
157157	NVH-PSA1/05G PAIL/35.0LBS-15.9KG
157158	NVH-PSA1/BOTTLE/0.90LBS-0.409KG
