Subject: LOCTITE® EA 9695 AERO – Global supply from Montornès facility as of January 2024

Dear Valued Customer,

In 2018, Henkel inaugurated a state-of-the-art adhesive production plant in Montornès, Spain. The facility is ramping-up and is intended to provide our customers with Global Supply Capability.

We are writing to inform you that, as of January 1, 2024, Henkel will start supplying LOCTITE EA 9695 AERO (the “Product”) globally, out of Henkel’s Montornès facility. Effective January 8, 2024, all customers will be required to place orders for the new Montornès IDHs listed in [Attachment A](#). Please make a note of this change in your internal systems for IDHs listed in [Attachment A](#) to avoid any disruption in ordering and delivery. All current orders with a delivery date between now and March 1, 2024, will be honored with production out of our Bay Point manufacturing location.

Please be assured all products sent from Henkel Montornès have been qualified by the relevant specification owners by manufacturing site, as indicated in [Attachment A](#). In case of recently placed orders for the Product, Henkel customer service team may contact you for consent to change your existing orders to supply out of the Montornès facility.

We appreciate your continued use of our products. Should you have any questions, please contact your local Henkel Sales Representative.

Sincerely,

Mike Didyk
