

December 2023

**Subject: North America Adhesives General Industry & Maintenance
Q4 2023 Product Rationalization**

Dear Valued Customer,

Henkel is committed to offering our customers a broad selection of product solutions to support your needs. We strive to optimize our portfolio, resulting in the discontinuation of some products. This letter is to inform you that the following articles below will no longer be available and at various stages of the phase out process. The entire list will be fully phased out by the end of Q1 2024.

Most of the articles listed below include products that are being phased out beyond North America Adhesive General Industry & Maintenance Business Unit control. These rationalizations are driven by raw material discontinuations, regulatory changes and discontinuations executed by other Business Units or Regions.

Material Number (IDH)	Material Description	Recommended Alternative
1217425	TECHNOMELT PUR 268D CLEANER DR145KG	Application dependent, contact TCS
