

Jan. 2025

**Subject:** LOCTITE SF 7840 Water-based, Biodegradable Cleaner

Dear Valued Customer,

As we work to optimize supply chain resilience, the following products are undergoing a 1:1 raw material replacement.

| Part Number | Description     | Package Type    |
|-------------|-----------------|-----------------|
| 2046043     | LOCTITE SF 7840 | 55 Gallon Drum  |
| 2046047     | LOCTITE SF 7840 | 1 Gallon Bottle |
| 2046048     | LOCTITE SF 7840 | 5 Gallon Pail   |
| 2046049     | LOCTITE SF 7840 | 24 OZ Bottle    |

The products have met all testing qualifications and performance will remain unchanged. You will see a change in Section 3 "Composition/Information on Ingredients" of the SDS where the new raw has replaced the old. This change has no impact on product labelling.

The timing of this change will take place by February, 2025.

If you have any questions, please contact your sales representative or Henkel Technical Customer Service ([tech.services@henkel.com](mailto:tech.services@henkel.com)) or call 800-562-8483.

With Best Regards,

*Jennifer DeFalco*
