Subject: Production System Notification

Products Impacted: RTV566

Dear Valued Customer,

Momentive has identified your facility as a purchasing location for products in our Electronic Materials portfolio. Please forward this notification to any other contact within your company that you feel has a need to know the following information.

In support of our growth strategy and our commitment to providing quality products and excellent service to our customers, we are pleased to inform you that in addition to using a toller, we will utilize our in-house production system to process the polymers that are used to produce the product listed above.

This change will be effective immediately.

We will utilize the toller and our in-house production systems interchangeably as needed to meet customer demand.

With the exception of these change, the product listed above will be manufactured using the same material inputs, according to the same base formulations, and will continue to meet all test specifications reported in our certificate of analysis.

We remain committed to serving you as our valued customer and appreciate your business.

If you have questions, please contact your local Momentive sales representative. Alternatively, you can reach me via email at Lynda.Nguyen@momentive.com.

Sincerely,

Lynda Nguyen
Product Manager – Americas
