

Product Liner Update – Engineered Industrial Tapes
3M™ High Temperature Aluminum Foil Tape 433L
3M™ High Temperature Aluminum Foil Glass Cloth Tape 363L
3M™ Glass Cloth Tape 361L
3M™ Polyester Tape 8991L, 8992L

October 1, 2024

Dear Valued Customer:

We are writing to inform you that 3M will be transitioning to an alternative liner for the following products:

- 3M™ High Temperature Aluminum Foil Tape 433L
- 3M™ High Temperature Aluminum Foil Glass Cloth Tape 363L
- 3M™ Glass Cloth Tape 361L
- 3M™ Polyester Tape 8991L, 8992L

We will begin transitioning to this new liner late Q1 of 2025.

3M products utilizing the new liner will continue to conform to the same 3M manufacturing specifications. There are, however, many factors that can affect a 3M products use, and our customers should evaluate such 3M product to determine whether such 3M product is suitable and appropriate for their specific application and intended use.

For further questions regarding this change, please connect with a 3M Industrial Adhesives & Tapes Division Product Specialist at 1-800-362-3550, option 2, option 2 or via email at 3mproducts.adhesives.us@mmm.com

Thank you for your continued support of 3M products.

Sincerely,

A handwritten signature in black ink that reads 'Monika Frenndt'.
